Jorge Sánchez Canales

PhD candidate in Governance, Hertie School

Berlin, Germany jorgesanchezcanales@gmail.com jscanales.github.io jscanales

Education

PhD in Governance, Hertie School, Centre for Sustainability — Berlin, Germany
Feb 2024 – present
- Supervisor: Prof. Lion Hirth. Expected completion: January 2027
- Research on electricity markets: market power, demand response and subsidy design
- Contributing to the projects Ariadne II and Machine Learning in Electricity Market Research (ML-Strom)

Master of Public Policy in Policy Analysis, Hertie School — Berlin, Germany
2021 – 2023
- Average grade: 1.3 (German scale, where 1.0 is the best)
- Specialization in sustainability and energy economics (electricity market design, electricity system modelling, net-zero energy systems)
- Master's thesis: Energy crises, price caps and side effects. A causal inference study of the Iberian cap on gas using OLS

Bachelor in Philosophy, Politics and Economics, Universidad Carlos III de Madrid, Universitat Pompeu Fabra and Universidad Autónoma de Madrid — Madrid, Spain
2016 – 2020
- Average grade: 9.02/10 (Spanish scale)
- Beca de Excelencia, Comunidad de Madrid (2019)
- With distinction in Research Methodologies for Political Science and Economic Sociology, among others

Experience

Barcelona School of Economics, Visiting PhD student — Barcelona, Spain
Host: Prof. Mar Reguant
Sep 2026 – Nov 2026

Hertie School, Centre for Sustainability, Research Assistant and Research Associate — Berlin, Germany
Supported the research of several PhD candidates in electricity markets: study design, data collection and statistical analysis in Python, and visualization of results
Feb 2023 – Feb 2024

Mercator Research Institute on Global Commons and Climate Change, Research Assistant — Berlin, Germany
Meta-analyses of the empirical literature on electricity markets and behavioural interventions: systematic search, data extraction and synthesis of results
Sep 2022 – Jul 2023

Teaching

Hertie School, Teaching Assistant, Master's level (instructor: Prof. Lion Hirth) — Berlin, Germany
Feb 2024 – present
- Economic Growth and Climate Change: Spring 2024 (45 teaching hours)
- Energy Economics 1: Spring 2025, Spring 2026, Fall 2026 (12 teaching hours per term)
- Energy Economics 2, formerly Electricity Market Design: Spring 2025, Spring 2026, Fall 2026 (12 teaching hours per term)

Hertie School, Co-advisor of Master's theses (official supervisor: Prof. Lion Hirth) — Berlin, Germany
2024 – 2026
- Six theses: three in 2024–25 and three in 2025–26

Publications

An empirical estimate of the electricity supply curve from market outcomes — Sep 2026

Energy Economics, 161, 109523 · DOI

Revealing the empirical flexibility of gas units through deep clustering Sep 2025
Chiara Fusar Bassini*, Alice Lixuan Xu, **Jorge Sánchez Canales**, Lion Hirth, Lynn H. Kaack
ECML PKDD 2025 Proceedings, Springer Lecture Notes in Computer Science · arXiv

Behavioral, Information, and Monetary Interventions to Reduce Energy Consumption in Households: A Living Systematic Review and Network Meta-Analysis Dec 2025
Tarun M. Khanna*, Diana Danilenko, Qianyi Wang, Luke A. Smith, Bhumika T. V., Aditya Narayan Rai, **Jorge Sánchez Canales**, Tim Repke, Max Callaghan, Mark Andor, Julian H. Elliott, Jan C. Minx
Campbell Systematic Reviews, 21(4), cl2.70070 · DOI

Revise and Resubmit

Identifying elasticities in autocorrelated time series using causal mechanism graphs Oct 2026
Lion Hirth, Jonas Peters, Oliver Ruhnau, **Jorge Sánchez Canales***, Felix Schur, Raffaele Sgarlato, Silvana Tiedemann
Revise and resubmit at Econometrica · arXiv

Market power abuse in wholesale electricity markets Jun 2025
Alice Lixuan Xu*, **Jorge Sánchez Canales**, Chiara Fusar Bassini, Lynn H. Kaack, Lion Hirth
Revise and resubmit at Energy Economics · arXiv

Working Papers

De-risking renewable energy investments: Assessing contract design and project finance using operational wind park data May 2026
Jorge Sánchez Canales*, Lion Hirth
Working paper · arXiv

Work in Progress

Demand response with behind-the-meter assets: what can we learn?
Draft in progress

Skills

Programming: Python 3 (advanced), Pyomo (intermediate), Java and C# (working knowledge)

Office: Microsoft Word, Excel and PowerPoint

Languages

Spanish: Native

English: Excellent (C1)
